Professional Summary

Java Full Stack Developer with hands-on training from the PGCP-AC (Post Graduate Certificate Programme in Advanced Computing) program at CDAC Noida, covering Core Java, J2EE, Hibernate, Spring, Spring Boot, Spring MVC, Spring ORM, Spring Data JPA, and REST API development.

Skilled in building end-to-end web applications with Java/Spring Boot backends and modern front-end technologies (HTML, CSS, JavaScript, React.js).

Strong foundation in Data Structures & Algorithms and Problem-Solving, with practical project experience developing a full-stack retail management and POS platform.

Quick learner with a Mechanical Engineering background, now transitioning into software development with a project-driven, detail-oriented approach.

Education

Durgapur Institute of Advanced Technology and Management 2018 – 2022
Bachelor of Technology, Mechanical Engineering CGPA: 8.56

Sabour College, Sabour, Bhagalpur 2015 – 2017
12th (PCM) Percentage: 51%

High School, Makwa 2014 – 2015
10th Percentage: 68.2%

Certifications & Training

PGCP-AC – Post Graduate Certificate 25 Feb 2026 – 11 Aug 2026
Programme in Advanced Computing, CDAC Noida *Java Full Stack Development*

- Covered Core Java, J2EE, Hibernate, Spring, Spring Boot, Spring MVC, Spring ORM, Spring Data JPA, REST API development, HTML, CSS & JS, and Data Structures & Algorithms (Problem-Solving).

Personal Projects

Vendora – Smart Retail Management & POS Platform 2026
Java, Spring Boot, Spring Security, JWT, Hibernate/JPA, MySQL, React.js, Redux Toolkit, REST APIs, Vite

- Developed a multi-branch retail management and Point of Sale (POS) application to manage products, inventory, customers, employees, orders, billing, and sales reports.
- Implemented role-based authentication and authorization using Spring Security and JWT for Store Admin, Branch Manager, and Cashier user roles.
- Built RESTful APIs with Spring Boot for authentication, product, inventory, customer, employee, and order management.
- Developed a responsive React.js frontend using Redux Toolkit for centralized state management and asynchronous API operations.
- Implemented POS billing functionality with automatic inventory updates, order processing, customer management, and sales tracking.
- Designed and managed relational data using MySQL and Hibernate/JPA, following proper entity relationships and database normalization.
- Integrated frontend and backend through REST APIs and handled secure, stateless authentication using JWT tokens.

Technical Skills

Languages: Core Java
Backend Frameworks: J2EE, Hibernate, Spring, Spring Boot, Spring MVC, Spring ORM, Spring Data JPA, Spring Security
Frontend: HTML, CSS, JavaScript, React.js, Redux Toolkit
Databases: MySQL
Tools & Others: REST APIs, JWT, Vite, Git & GitHub
Soft Skills: Problem-Solving, Analytical Thinking, Teamwork, Adaptability
Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS
